PUBLIC AWARENESS OF MULTIPLE SCLEROSIS

Mr. BROWNBAC. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Con. Res. 97 introduced earlier today by Senator REED.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The assistant legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 97) expressing the support of Congress for activities to increase public awareness on multiple sclerosis.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. REED. Mr. President, this resolution expresses the support of Congress for activities that will raise public awareness of multiple sclerosis.

Multiple sclerosis (MS) is a chronic, often disabling disease of the central nervous system. Symptoms can range from mild numbness in the limbs to paralysis and blindness. Most people with MS are diagnosed between the ages of 20 and 40, but the unpredictable physical and emotional effects of this debilitating disease can be lifelong. The progress, severity and specific symptoms of MS in any one person cannot yet be predicted, but advances in research and treatment are giving hope to those affected by the disease. It is known that MS afflicts twice as many women as men, however, once an individual is diagnosed with MS, their symptoms can be effectively managed and complications avoided through regular medical care.

Nationally, it is estimated that between 250,000 and 350,000 individuals suffer from MS, which is approximately 1 out of every 1,000 people. In Rhode Island, the rate is slightly higher—1.5 out of every 1,000. Over 3,000 individuals and their families in my home state are affected by this disease.

It is my hope that through this resolution we can bring greater attention to the devastating effects of this disease, while also building support for additional research. It is through more
